Why Choose the H40+?

✓ Precision Dispensing

Advanced drive and brake system delivers smooth, accurate flow—no free play, just perfect control.

✓ Mess-Free Application

Enhanced anti-drip and brake release features keep your workspace clean and eliminate rework.

✓ Confident Control

Trigger-controlled brake offers sharper grip and smoother release for total handling confidence.

✓ Power with Ease

20% more thrust than original means faster application with less effort—perfect for thick materials and cold conditions.

✓ Built to Last

Durable, wear-resistant components ensure long-term, professional-grade performance.

✓ Guaranteed Reliability

Backed by a 2-year warranty for peace of mind and proven quality.
